

ADHESIVE DESCRIPTION: F-590

A very aggressive rubber based freezer permanent adhesive exhibiting high initial tack and very good adhesion to a wide variety of packaging materials and films. F-590 will adhere to a frosty surface depending upon the substrate and the amount of frost and/or free moisture present. Pretesting is recommended to determine end-use applicability.

Type	Freezer Permanent
Classification	Rubber Based
Minimum Application Temp.	-15°F
Service Temperature Range	-40°F to +130°F
Regulatory Compliances	Indirect Food 21 CFR 175.105, California Proposition 65, CONEG, RoHS, REACH and Natural Rubber Latex Free

All product specifications are for informational use only. Each customer and/or end user should determine the suitability of any product for their particular application. The above specifications are based on typical values and most current information. Specific products listed were current at the time of publication, however, all raw materials are subject to change.

Shelf Life: One year when stored at 72°F / 50% RH.
