

ADHESIVE DESCRIPTION: PCT-425

A very aggressive cold temperature permanent which exhibits excellent adhesion to films, even in the presence of moisture. PCT-425 will adhere to a frosted surface depending on the amount of frost and moisture present. This adhesive has great cold flow properties, and is an excellent choice for dairy label applications. Pretesting to determine end use applicability is recommended.

Type	Cold Temperature Permanent
Classification	Rubber Based
Minimum Application Temp.	+35°F
Service Temperature Range	-15°F to +140°F
Regulatory Compliances	Indirect Food 21 CFR 175.105, California Proposition 65, CONEG, RoHS, REACH, and Natural Rubber Latex Free

All product specifications are for informational use only. Each customer and/or end user should determine the suitability of any product for their particular application. The above specifications are based on typical values and most current information. Specific products listed were current at the time of publication, however, all raw materials are subject to change.

Shelf Life: One year when stored at 72°F / 50% RH.
