

ADHESIVE DESCRIPTION: R-165

An emulsion acrylic ultra-removable adhesive with low tack on flat smooth surfaces. It can be cleanly removed after an extended period of time. Applications include glass, counter tops, painted metal, smooth painted walls, and stainless steel. For optimum performance, we recommend a film facestock. R-165 has demonstrated good cold temperature properties under certain conditions. Qualifying the adhesive for the specific end-use substrate is a prerequisite.

Type	Ultra-Removable
Classification	Emulsion Acrylic
pH	Alkaline
Minimum Application Temp.	+40°F
Service Temperature Range	+25°F to +150°F
Regulatory Compliances	ASTM F963-03 Toy Safety, CONEG, Indirect Food 21 CFR 75.105, Non Ozone Depleting, Free from Natural Rubber Latex, RoHS and REACH

All product specifications are for informational use only. Each customer and/or end user should determine the suitability of any product for their particular application. The above specifications are based on typical values and most current information. Specific products listed were current at the time of publication, however, all raw materials are subject to change.

Shelf Life: One year when stored at 72°F / 50% RH.
