

ADHESIVE DESCRIPTION: R-2211 SHELF MARKING

R-2211 has good initial tack and adhesion to papers. Adhesion to rigid plastics, films, glass, and painted metals is good. R-2211 is recommended for shelf marking applications. Its firmness gives it very good press runnability and very good trimming characteristics. It is not recommended for water immersion.

Type	General Purpose Removable
Classification	Emulsion Acrylic
pH	Alkaline
Minimum Application Temp.	+20°F
Service Temperature Range	0°F to +150°F
Regulatory Compliances	Indirect Food 21 CFR 175.10, CONEG, and RoHS

All product specifications are for informational use only. Each customer and/or end user should determine the suitability of any product for their particular application. The above specifications are based on typical values and most current information. Specific products listed were current at the time of publication, however, all raw materials are subject to change.

Shelf Life: One year when stored at 72°F / 50% RH.
